4 units Math				
4 units Science				
4 units Language Arts				
4 units Social Studies				

OR

Social Studies & Language Curriculum

2 units World Language				<i>must be the same foreign, Alaska Native, or American Sign language</i>
3 units Math				
3 units Science				
4 units Language Arts				
4 units Social Studies				

Each school district is responsible for providing students with a complete list of all courses that can be used to qualify for the APS.

Districts may include two APS qualifying course categories - standard and additional. A district's standard courses have the standard course name or are otherwise equivalent to a standard course. A limited number of additional courses may be used as follows: for the Social Studies & Language Curriculum, one additional course is permitted in each subject area (math, science, language arts, and social studies). For the Math & Science Curriculum, one additional course each is permitted for math and language arts, two each are permitted for science and social studies. Also, (for the Math & Science Curriculum only) a foreign language, Alaska Native Language, American Sign Language, cultural heritage or fine arts course may be substituted for one standard course of social studies.

Contact your counselor for more information about standard and additional courses approved for the APS at your school district. Approved courses may also be available through resources such as Alaska's Learning Network (AKlearn.net) or the University of Alaska. Eligibility is determined based upon courses contained in your school's permanent student record.

10/12/2012

COURSE LIST
